1 reference, imported from the Wikimedia Book by Yakai Echon Hjaku Monogatari (絵本百物語, The Book of a Hundred Stories), also ized by Tosanjin Java (桃夜話, Night Stories of Tosanjin) is a book by Yakai illustrated by Japanese artist Takehara Shunsai, published circa 1841. The book was conceived as a continuation of the series of Gazu Hjakki Yagyo Toriyama Sekien. Like these books, it is a supernatural bestiary of ghosts, monsters and spirits that has had a profound impact on subsequent images of the Yakai in Japan. An author named Tosanjin (桃); however, it is written as Taka Sanjin (桃花). According to Kokusho Semokuroku (Ivanami Shoten), this is considered the author of the gesaku from the second half of the Edo period, Takaen Mihimaro (桃花園三千麿). You could say that this kind of stowling tale of kaidan (ghost story) book is popular in the Edo period, as 100 tales is part of the title, but instead of fairy tales with story titles, y'kai names are printed with illustrations y'kai, so it can be said that this work is a fusion of cidan books and books with pictures. This book is also known as Tosanjin Java, because the title on the first page of each volume is Tosanjin Java, Tom. Fellow of Japanese manners and customs Ema Tsutomu (Nihon Y'kai Henka-shi, 1923) and folklorist Fujisawa Morihiko (Hentai Densetsu-shi, 1926), as well as magazines of the time, presented this book under the name of Tosanjin Java, and therefore this name glorified. On the other hand, Mizuki Shigeru, in his 1979 film Yakai 100 Monogatari, describes it in his references as Ekan Hjaku Monogatari (Author: Tosanjin, Year of Publication: Unknown). It was also recognized that a book with exactly the same content, entitled Echon Kaidan Soroe, had been published in 2005 by Yumoto Koichi. The title of the foreword has been changed, and the title of each volume is Echon Kaidan Soro Tom, not Tom Tosanjin Java. After studying, this seems to be an earlier publication than Ehon Hyaku Monogatari, with the attitude that the inscriptions of Tosanjin and Taka Sangin are mixed, and it is also usually assumed that the first edition of Echon Hyaku Monogatari may have been published before 1841. The list of creatures In the illustration below is measured by volume and appearance. For example, the third illustration in the first volume is 1-3 and so on.
